

# U.S. Fish & Wildlife Service

## Partners For Fish & Wildlife

### Project Proposal FY 2000

#### Project Information

Project Name:

Cooperator 1 Name:

Title:

Street Address:

City, State, Zip:

Phone:

Fax:

E-mail Address:

Cooperator 2 Name:

Title:

Street Address:

City, State, Zip:

Phone:

Fax:

E-mail Address:

## Project Location

(Please send a location map via e-mail to [marty\\_jakle@fws.gov](mailto:marty_jakle@fws.gov) or fax to 602-640-2730):

County:

Township:

Range:

Section:

Map quad name (if known):

Stream name:

Landownership (check one): Private      Organization      City      County      Tribal      State

Landowner Name:

Land Manager:

## Site Information

Dominant vegetation species:

Habitat Type:

Current land use (both on the project site and on adjacent areas):

Depth to groundwater (if known):

Elevation:

Flood frequency:

Existing facilities on property that may be incorporated into project design (i.e. wells, irrigation system, fencing, etc.) and their condition (i.e. operational, require repair):

**Project Description:** Describe the habitat improvement work proposed, including the number of acres or miles of stream which will be enhanced.

FY 2000 Project Name:

## Species Information

**Species Present:** Identify the native species this project proposal will impact. (Special emphasis on migratory birds, federally listed or candidate species, or habitat on which these species depend.)

List any other entities that could benefit from this project (i.e. adjacent landowners):

Are there any anticipated negative effects of the proposed activity both short- (<2 yrs) and long-term (i.e., construction impacts, decline or loss of native species, change in native plant community type)?

Identify source and amount funding the landowner will provide in the form of any cost sharing, local match, or contributions including in-kind contributions for this proposed project.

Anticipated costs of project the U.S. Fish & Wildlife Service would provide
